

Your product. Our engine. Wholesale, priced in public.

For ISVs with a vertical solution on Dataverse who today ship compiled templating inside the product — Aspose.Words with LINQ, or an equivalent. You embed the DocGen render engine (Handlebars + FetchXML templates, one API, headless Chromium in the end customer's own Azure subscription) and keep everything else: your product, your brand, your customer relationship, your price.

WHOLESALE — PER END-CUSTOMER PRODUCTION ENVIRONMENT, PER YEAR

ENVIRONMENTS	PRICE PER ENVIRONMENT PER YEAR
1–5	€3,500
6–20	€3,000
21–50	€2,500
50+	Talk to us

Minimum year-one commitment: 5 environments (€17,500). You resell at whatever price you like — we do not control it and do not want to. All prices exclusive of VAT.

WHO DOES WHAT

You do

- Tier 1 support to the end customer
- Deployment into customer environments, against the runbook
- Template authoring and maintenance
- Billing the end customer

We do

- The engine, versioned and tested
- Chromium and Dataverse API compatibility
- Tier 2 support to you only — two named contacts, Portugal hours, next-business-day response
- An OEM sandbox environment at no charge

Publisher prefix, up front. The API is `sss_GenerateDocument` and keeps our publisher prefix — we do not produce partner-prefixed builds, and the prefix is visible in your product's schema. If that is a blocker, say so before signature, not after.

TERMS THAT MATTER

- **Continuity.** Source code, runbook and build instructions in escrow. Releases on insolvency, death or incapacity, or 12 months without a release — you receive an irrevocable perpetual licence to the source for maintaining your own product, with no right to resell the engine on its own.
- **Deal registration.** Register end customers by email; registered for 24 months. We do not approach them for DocGen — or PSA Hub — during the term plus 12 months. No exclusivity of any kind is offered.
- **Hosting.** One container per end customer, in that customer's own Azure subscription. ISV-hosted multi-tenant is a separate conversation and a separate price.
- **Term.** Annual, paid in advance, non-refundable. Renews automatically with 60 days' notice. Price fixed for 24 months from signature.

Start. Email info@simplesmoothsafe.com, subject: Partner — OEM. Say what your product is, what does its templating today, and roughly how many end-customer environments you expect in year one. We stand up your OEM sandbox from that email. Docs first? docgen.simplesmoothsafe.com/docs/ — nothing is held back for the call.
